DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 19-37 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: "The method for providing seamless fail-over of communication between a client computer and a cluster of servers" presented in the new claims 19, 32 & 35 by the applicant on August 20, 2007 is distinct from "the method of connecting a client application at a computing device by way of a network access module (NAM) at the computing device to a software server 'server' instantiated on one of a plurality of hardware servers on a cluster 'cluster', the hardware server being remote from the computing device" originally presented by the applicant on March 29, 2007.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 19-37 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. The amendment filed on 8/20/2007 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because The method for providing seamless fail-over of communication between a client computer and a cluster of servers presented in the new claims 19, 32 & 35 by the

applicant on August 20,2007 is distinct from the method of connecting a client application at a computing device by way of a network access module (NAM) at the computing device to a software server 'server' instantiated on one of a plurality of hardware servers on a cluster 'cluster', the hardware server being remote from the computing device originally presented by the applicant on March 29,2007. Please also see MPEP § 819 [R-3].

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of **ONE (1) MONTH or THIRTY (30) DAYS**, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. Since this application has been granted special status under the accelerated examination program, **NO** extensions of time under 37 CFR 1.136(a) will be permitted.

The objective of the accelerated examination program is to complete the examination of an application within twelve months from the filing date of the application. Any reply must be filed electronically via EFS-Web so that the papers will be expeditiously processed and considered. If the reply is not filed electronically via EFS-Web, the final disposition of the application may occur later than twelve months from the filing of the application.
